C24 Penny Camera

General Description

The C24 Penny Camera is a rugged color mini camera head that has 350 lines of resolution, 0.3 Lux sensitivity, and only measures 3/4" in diameter. It has LED solid state lighting consisting of 10 ultra-high output white LED's totaling 180,000 mcd output. The color mini camera comes with a recessed shatter proof lens, and rugged steel electrical connector. It is interchangeable on any camera unit. The C24 cameras are frequently used to inspect inside rotary pumps and are often referred to as Screw Pump Cameras, but have many other industrial uses.
