## SEWER ZOOM CAMERA

### General Description

The Sewer Zoom Camera is a high power , 470 line high resolution color r camera with high intensity light. It allows users to see a long distance down sewer lines by the use of a remote controlled telescopic lens. Inspections of sewers from the manhole are possible without entering the line or manhole. A 18 X optical and 4 X digital zoom lens (total 72X) are remote controlled along with iris and focus, +/- 350 degree pan and +/- 140 degree tilt. The control unit features a built in 7" LCD color monitor, auto focus on/off, zoom in/out and light intensity control and 25' poles.
