MODEL 10

## General Description

The model 10 control unit is one of our smallest models of portable camera control units. It features a built in color LCD monitor with sun shade, digital recorder with USB, and video out connector for connecting to a separate recording device. It has an adjustable light power supply and houses a complete mini reel with slip ring and mini Pan and Tilt colour camera.

The control unit, monitor, and camera reel are housed in a rugged waterproof case about the size of a small briefcase. The case also holds the battery, battery charger, and interconnect cables. The Model 10 camera is a fully remote controlled Pan and Tilt camera head measuring 1.6" in diameter and is ideal for industrial inspections.
